# The Inter-Mountain presents its semi-annual BUSINESS SHOWCASE

## Clayton Homes

Clayton Homes of Elkins will host a grand reopening to celebrate the completion of a new sales center.

### Celebrating a grand reopening

Excitement is in the air at Clayton Homes of Elkins. Twenty-two years after the original opening of the sales center, located on the Beverly Five-lane between Wal-Mart and Beverly, the business has moved into a new office and is making other improvements to the lot.

General Manager Judy Ritchie said it is fun to be celebrating her 22nd year at the sales center in a new office.

"However, moving 22 years of my work life was not fun," she said. "Lots of memories have been made in our old office, and the past few weeks have been very nostalgic."

Clayton Homes of Elkins will be celebrating this weekend, with WDNE-FM scheduled to be at the sales center from 4 to 6 p.m. Friday. The radio station will bring a wind machine stuffed with tickets to a Toby Keith concert, Kennywood, gas cards and other great attractions, sponsored by WDNE and Clayton Homes.

"We also will have a second drawing that will end on Saturday evening for Toby Keith and Rod Stewart tickets," Ritchie said.

Along with some great prices on Friday and Saturday, the company is offering some retro pricing for customers.

"When we opened in 1990, washer and dryer sets were just \$525, skirting kits for homes were \$400, and AC units for homes were just \$1,600," she said. "We will be matching these 1990 prices with deals made on Friday and Saturday of this week. Be sure to ask Cheri Doss (sales manager), Kristi Kirkpatrick or Leesa Ice what you would need to do to qualify for these great prices."

There is still one multiple-section stock home on clearance, and two singlewide homes. The clearance price starts at \$28,995 for a three-bedroom, two-bathroom home.

Other special deals include the Value MOD home. This off-frame, three-bedroom and two-bathroom home is on special for \$99,900. This price includes the block foundation, home delivery and setup. The home has appliances and its drywall interior is completely finished, and all its floor coverings are installed, as well as window coverings.

"We have received some new

Clayton Homes of Elkins offers several different homes at a great value.

model homes in during our re-modeling stage," she said. "The DEAL floor plan comes with a built-in entertainment center that has a revolving TV stand so that you can see the TV in the living room, kitchen or family room and the reverse side of it is a computer desk area. It's a perfect layout for a family atmosphere."

Also new is a four-bedroom home that offers a private study and one of the largest kitchen islands that Clayton Homes staff members have ever seen. With more than 2,000 square feet, this home offers some great options like large closets, luxurious mas-

ter bath and much more. Clayton Homes of Elkins is a service-award-winning sales location. Clayton Homes features local employees serving local homebuyers.

Along with Judy and the housing consultants, Rick Markley and Jon Crites round out the staff.

More information on Clayton Homes of Elkins is available by calling 304-636-6900, visiting the website at www.claytonhomeselkins.com or stopping by the location along the Beverly Five-lane between Elkins and Beverly.
