# BUSINESS SHOWCASE

## AUTO MEDIC

AutoMedic's new location along Harrison Avenue behind the Stroehmann Bakery provides easier access along with affordable prices.

### New location to better serve customers

AutoMedic has moved to a new location to better serve customers and still provide the highest quality repair work on cars, trucks, motorcycles or other rides. Owner Mark Lentz said the new location, behind the Stroehmann Bakery, along Harrison Avenue, provides a larger facility to help provide fast, reliable premium service at an affordable price.

"I strive to provide the best price I can," Lentz said. "I try to keep the cost as low as possible and use computer estimates so there is no guesswork or surprises."

The new facility features a three stall garage where automobile repair takes place and a separate section dedicated solely to motorcycle work. AutoMedic is one of the only Harley-Davidson repair shops in the area.

The business provides a wide variety of catalogs and provide numerous parts accessories to spruce up any two-wheel ride. Lentz provides Rush Exhausts and OEM Harley-Davidson parts to help customize motorcycles. AutoMedic is also an authorized Klock Werks dealer.

AutoMedic also has the capabilities to run diagnostic tests to find out why a "check engine" light comes on on Harley-Davidsons. He has motorcycle maintenance materials, such as oil, filters and gaskets.

Lentz also provides fast and

affordable automotive repair. AutoMedic provides coolant flushes, air conditioning repair and makes use of computer diagnostics to remedy problems that could arise. Lentz and AutoMedic also have the ability to do emission error tests with its Evaporative Emissions Machine.

The new facility is also equipped with a hydraulic lift that allows for Lentz to work faster and access hard to reach areas underneath vehicles.

Lentz said he works on European autos including BMW, Volkswagen and Mercedes Benz, as well as Asian and domestic vehicles. Lentz also will work with after market auto warranty companies, and has worked with

Geico's motorcycle insurance. The new facility has also allowed Lentz to expand his business. AutoMedic is also an official West Virginia vehicle inspection station and also installs new tires.

Lentz is also a member of the Automotive Service Association. "I provide a quick turnaround and try to get people's vehicles back to them as soon as possible," Lentz said. "I will do anything, really, except body work. I try to do whatever I can for a customer."

AutoMedic is open Monday through Friday from 8 a.m. to 6 p.m. For more information call AutoMedic at 304-636-8806.
